## CROP PERSPECTIVE:

**Domestic Perspective:** As on 15.08.2025 the area sown under rice for kharif season is 398.59 lakh Ha, 35.67 lakh Ha increase over same period last year when area sown was 362.92 lakh Ha.

**International Perspective:** The USDA has revised its global rice production forecast for 2025-26 to 541.46 million metric tons (MMTs), forecasting a 0.63 MMT increase from the previous year. India has surpassed China for the second consecutive year to become the world's largest rice producer, with an estimated production of 151.00 MMTs, while China's production is projected at 146.00 MMTs. Together, these nations account for approximately 54.85% of global rice production. Global rice trade is projected to reach 62.04 MMTs in 2025-26, no change from the previous year. India is expected to remain the leading rice exporter, with exports forecasted at a record 25.00 MMTs, representing nearly 40.30% of global rice trade. As per global rice price seasonality, prices are the lowest in October, and increase thereof, peaking in January. Prices then decrease marginally between March/April, decreasing further till July before again rising in August.

According to the latest World Bank data, the global prices of Thai 25% broken rice averaged \$382.00 per metric ton in July 2025, marking a 31.42% decrease from July 2024. Prices have decreased month on month when prices were \$408 per ton in June 2025.

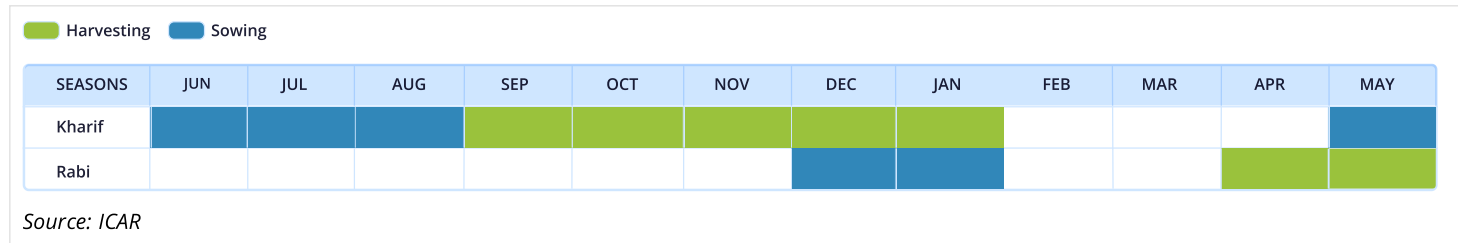

## Commodity Report: Rice

Key parameters on commodity situation are discussed below

### CROP CALENDER:

Rice is sown in kharif, rabi & summer seasons.

Figure 1:Crop Calendar

### PRODUCTION:

As per DA&FW Third Advance Estimates for 2024-25 ,rice production is estimated to be 1490.74 LMTs

Figure 2:Statewise Rice Production Share of Major Producing States (2024-25)\*

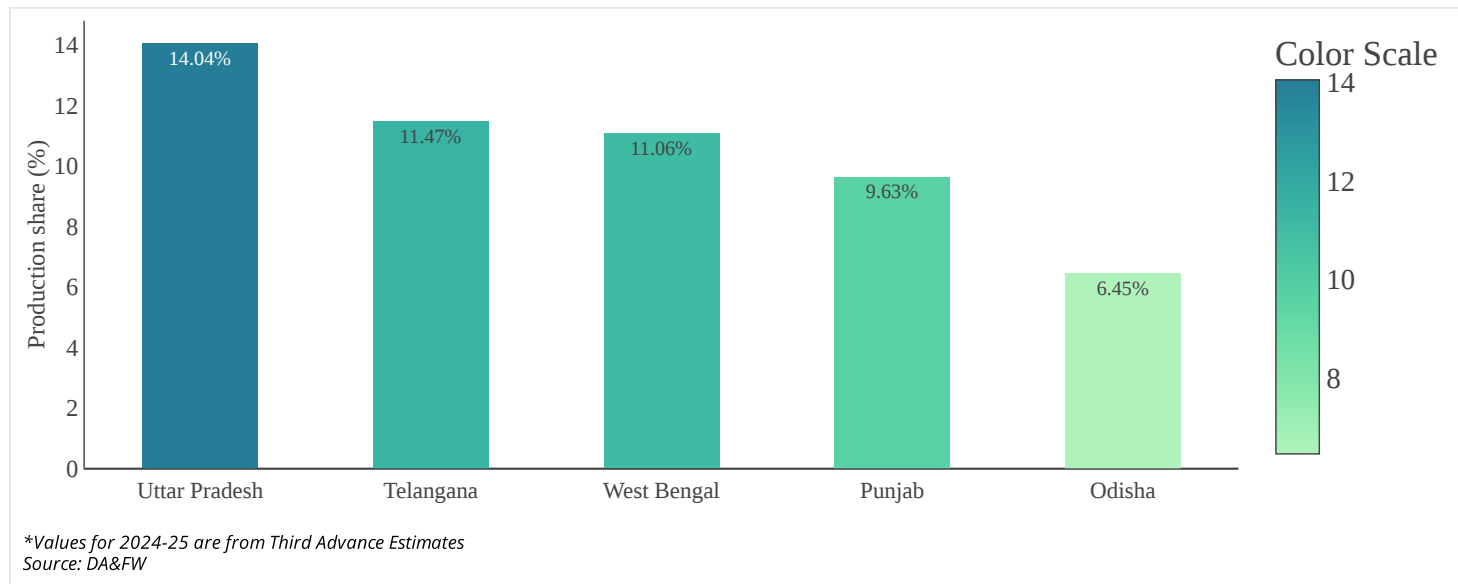

Table 1: Major Rice Producing States, 2024-25\* (Production in LMTs)

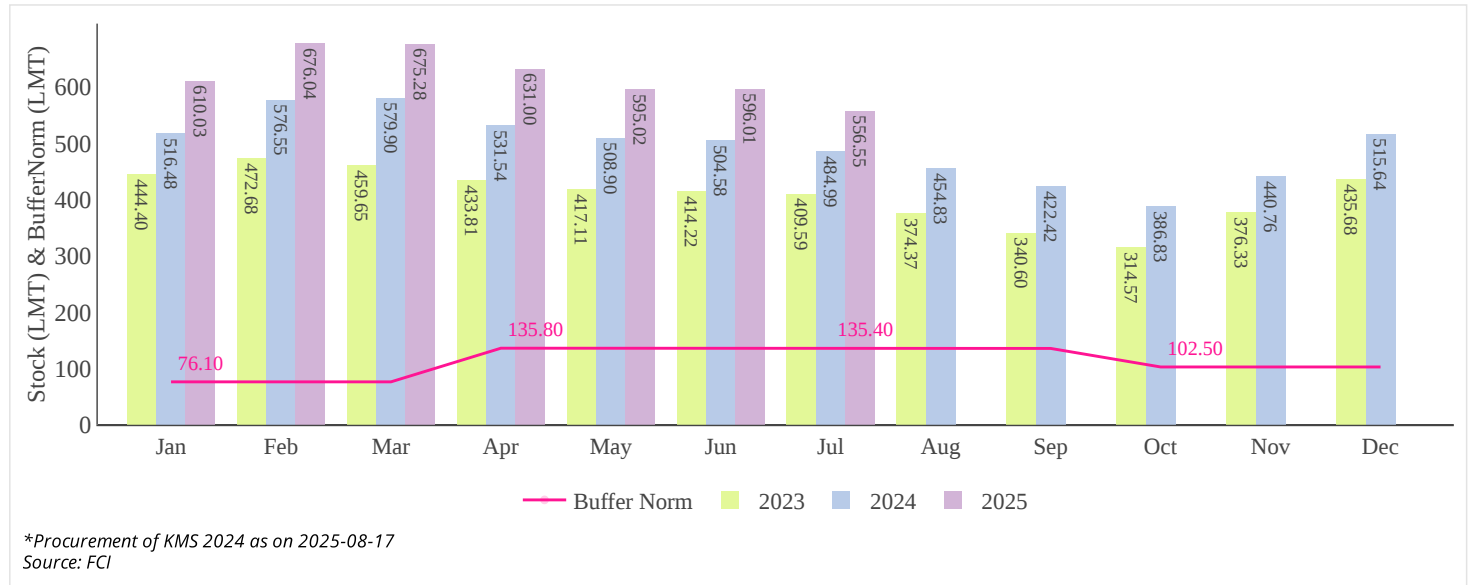

| State         | (2024-2025) | Previous Year (2023-2024) | Year (2022-2023) | Last 5 years Average |

## INFLATION:

**CPI inflation:** Usually, CPI inflation in rice tends to be at its lowest level in Oct, Nov or Dec, which coincides with the kharif crop's harvest. It rises thereafter, and arrival of rabi & summer crop tends to moderate the rising trend around July or Aug & CPI inflation peaks in Sept, right before the onset of the next kharif crop. Inflation in the Consumer Price index in Jul 2025 was 1.54% which is lower than 10.89% reported in the same month last year and also lower than 2.59% reported in previous month.

**WPI inflation:** Inflation in the Wholesale Price Index in Jul 2025 was -1.70%, lower than 9.80% reported in the same month last year and lower from -1.60% reported in previous month.

**Figure 8:WPI & CPI Inflation from Jul-2023 to Jul-2025**

## TRADE:

**EXPORTS:** In the current financial year, till May 2025,2.08 LMT of rice has been exported. In May 2025 , Rice exports were 1.04 LMTs.These were lower by 93.17% compared to May 2024.
